+45 91644918 | al3xa91@gmail.com | Billund, Denmark

PROFILE

I am a dedicated Multimedia Design student (exp. 2028/2029) driven by a genuine passion for the user experience. I am actively bridging my background in elite hospitality with my love for digital product design.

Working daily at the LEGO Campus (via Compass Group) is my favorite way to connect with colleagues. It has given me a firsthand feel for the internal enterprise culture and the tools the team uses every day.

My time in Michelin-star service taught me that empathy and the smallest details matter. I bring that same "people-first" mentality to UX—using careful observation and detailed note-taking to solve real user frustrations.

Armed with a growing proficiency in Figma and core UI principles, I am genuinely excited to dive into prototyping, support collaborative workshops, and learn everything I can from the Digital Technology team.

Process & Research: User Observation, Note-taking, Empathy Mapping, Workshop Support

LANGUAGES

Italian & Spanish Native **English** Fluent **Danish** Intermediate

EXPERIENCE

Barista | Compass Group @ LEGO Campus
Billund, Denmark | Dec 2023 – Present

Interact with colleagues from all over the company every day, which has naturally taught me a lot about how LEGO teams work and collaborate.

Treat every busy rush as a chance to practice observation—staying positive and focusing on the small details that make someone's day a little easier.

Waitress | MeMu Michelin Star Restaurant
Vejle, Denmark | Sept 2023 – Dec 2023

Honed my observation skills to carefully read guest behavior and anticipate their needs, focusing on the small details that make an experience feel seamless.

Learned to manage strict routines and multiple tasks at once, staying calm, organized, and positive even in a highly demanding environment.

Team Coordinator | LEGOLAND Village
Billund, Denmark | March 2023 – Sept 2023

Guided the morning alignments for our team, acting as a facilitator to organize our daily tasks and keep the team connected.

Acted as a bridge between guests and management by gathering daily feedback, highlighting recurring frustrations, and helping find practical solutions.
